👤 PROFILE

As a dedicated undergraduate in software engineering, I have a strong knowledge of programming languages like Java, Python, JavaScript, SQL, and PHP. Additionally, I know languages such as HTML and CSS. I am enthusiastic about applying my technical skills and analytical mindset to create innovative software solutions for real-world challenges. I have practical experience in software development and am eager to expand my knowledge further. I aim to gain valuable hands-on experience in software engineering while contributing to meaningful projects.
